## SOLUTIONS

## Learning Goal 26

## Multiple Choice

1. d
2. d
3. d Choices (a), (b), and (c) all keep total debits equal to credits, so a trial balance would stay in balance.
4. a This is the only choice in this question that would cause the trial balance to not balance.
5. d Tricky question. The trial balance would remain in balance, but it would not be "completely unaffected" because one account would be overstated and another would be understated.
6. c Total debits are understated by $\$ 450$, because Cash was debited for $\$ 50$ instead of $\$ 500$.

Use T accounts to visualize this:

| Cash |  |
| :---: | :---: | :---: |
| 50 | Some other <br> account |
|  | 500 |

7. b Use T accounts to visualize:
(Total credits are understated by $\$ 225$.)

8. c

| Notes payable .. | 295,440 |
| Total liabilities .. | \$332,640 |
| Owner's Equity |  |
| J. Miles, Capital.......................................................... | 233,340 |
| Total liabilities and owner's equity .......................... | \$565,980 |

## SOLUTIONS <br> Learning Goal 26, continued

LG 26-4. The major problem with this "balance sheet" is that the student is confused about the difference between a trial balance and a balance sheet. The entire format is incorrect.

## Errors:

- Financial statements NEVER have debits and credits! Most people do not know what they are.
- This statement is prepared in the columnar format of a trial balance, showing the debit and credit totals. Debits and credits have nothing whatsoever to do with where numbers are written on a financial statement.
- Owner's equity should just be one number, showing the final balance of Wayne Grey-Eagle, Capital. This statement has made the owner's equity section into a miniature version of the statement of owner's equity.
- The title of the statement does not show the date.

All of these are serious mistakes. I would give this statement a score of about 4 out of 10 . Although there are some minor variations in report format, here is one correct way the report form of the statement should look:

# Wade Engineering Statement of Owner's Equity For the Year Ending December 31, 2017 

| Frank Wade, capital, January 3 |  | $\$-0-$ |
| :--- | ---: | ---: |
| Add: Owner investment | $\$ 25,000$ |  |
| $\quad$ Net income | 12,950 |  |
|  |  | 37,950 |
| Less: Withdrawals |  | 4,400 |
| Frank Wade, capital, December 31 |  | $\underline{\underline{\$ 33,550}}$ |

Question: How could you verify the amount of Frank Wade's investment? Use the formula for the statement of owner's equity: Beginning capital + investment + net income - drawings $=$ ending capital. This was: $0+\mathrm{X}+12,950-4,400=33,550 . \mathrm{X}=25,000$.
a. Business operations caused the total wealth of the company to increase by $\$ 12,950$.
b. We can examine the statement of cash flows to learn what happened to cash during the current period of operations. The statement of cash flows shows us that the operations only provided $\$ 700$ of cash. Investing activities (equipment was purchased) used up $\$ 18,200$ of cash. Finally, the financing activities shows us that the main source of cash was Frank's investment, less what he drew back out of the business. This was a net of $\$ 20,600$. To summarize: A zero beginning cash balance $+700-18,200+20,600=3,100$ ending cash balance.
c. $\$ 700$ was generated from operations (see Operating Activities on statement of cash flows on page 515 in the text).
d. The income statement shows design revenues of $\$ 27,800$, yet the statement of cash flows reveals that only $\$ 10,700$ was collected from the customers. Uncollected receivables must be building up. This is a serious problem. The business is making sales but is not able to collect cash from the customers. As the receivables build up, the business begins to experience cash flow difficulties. The cause? There could be several:
(1) Poor selection of customers; they do not have the ability to pay on time.
(2) Slow billing procedures and no reminders.
(3) Disputes arising from poor work.
(4) Fraud. Nonexistent sales are being reported.
e. The biggest use of cash was the purchase of equipment- $\$ 18,200$. This is understandable because it is a new business that needs equipment to begin operations. This cash expenditure probably will not have to be repeated next year, so cash flow is likely to be more positive. However, small businesses are always in need of cash to expand operations.
f. The balance sheet shows only $\$ 3,100$ of cash. There is $\$ 4,900$ of wages payable. Employees want to be paid on time. If the business cannot do this, the employees will leave. This is probably why Frank is hoping to hear from you quickly. Another source of cash is the accounts receivable, but the statement of cash flows warns us that receivables are building up, so this is a questionable source of cash. Moreover, there are other short-term payables of $\$ 2,900$ due in the near future. The business is having a cash-flow crisis.

## SOLUTIONS

## Learning Goal 26, continued

## LG 26-7, continued

g. Assuming that there is no fraud and only poor cash-flow management, it appears that much effort has been devoted to finding customers and doing jobs. Very little effort has been devoted to getting payment from customers. Although operations have created $\$ 12,950$ of new wealth, much of this still remains in the form of accounts receivable.
h. The two survival issues are profitability and liquidity. Profitability means operating the business in such a way that wealth is accumulated. Liquidity means having enough cash available to: (1) pay debts as they come due and (2) take advantage of opportunities and grow.
i. Well, it's your money, but I wouldn't put in a nickel without finding out what is happening here. IF there is no fraud, the customers are good, and the quality of work is good, then I would be interested-with the provision that I would manage financial operations while Frank concentrated on doing the engineering work.

| Totals | \$156,350 | \$156,350 |

## SOLUTIONS

## Learning Goal 26, continued

LG 26-8, continued

## Antonelli Landscape Services <br> Income Statement <br> For the Month Ended May 31, 2017

Revenues:
Design revenue $\quad \$ 13,000$

Maintenance revenue $\quad 1,250$
Total revenues
\$14,250
Expenses:
Wages expense 8,500
Advertising expense $\quad 1,950$
Rent expense $\quad 1,500$
Gardening supplies expense 840
Auto and gas expense 280
Utilities expense 170
Insurance expense 150
Office Supplies expense 100
Interest expense $\quad 1,400$
Total expenses
Net (loss)

Note: Because interest expense is not an operating expense, it is often shown below other expenses.

| Antonelli Landscape Services Statement of Owner's Equity For the Month Ended May 31, 2017 |  |
| :---: | :---: |
| M. Antonelli, capital May 1 | \$ -0- |
| Add: Investments | 102,000 |
|  | 102,000 |
| Less: |  |
| Withdrawals | 2,000 |
| Net loss | 640 |
| M. Antonelli, capital May 31 | \$ 99,360 |

## SOLUTIONS

LG 26-8, continued

| Antonelli Landscape Services Balance Sheet May 31, 2017 |  |  |  |
| :---: | :---: | :---: | :---: |
| Assets |  | Liabilities |  |
| Cash | \$ 77,000 | Accounts payable | \$ 1,700 |
| Accounts receivable | 2,750 | Unearned revenue | 11,000 |
| Office supplies | 150 | Notes payable | 27,400 |
| Gardening supplies | 3,060 | Total liabilities | 40,100 |
| Prepaid rent | 4,500 |  |  |
| Equipment: office | 12,000 | Owner's equity |  |
| Equipment: automotive | 35,000 |  |  |
| Equipment: gardening | 5,000 | M. Antonelli, capital | 99,360 |
| Total assets | \$139,460 | Total liabilities and owner's equity | \$139,460 |

Note: Remember to check the owner's equity balance as follows: total assets - total liabilities equals owner's equity. So $\$ 139,460-\$ 40,100=\$ 99,360$. This should be exactly the same amount as the ending balance on the statement of owner's equity.

LG 26-9, continued

| Consolidated Eco-Tour Service Company Balance Sheet July 31, 2017 |  |  |
| :---: | :---: | :---: |
| Assets |  |  |
| Cash | \$ 98,600 |  |
| Accounts receivable | 3,700 |  |
| Supplies | 1,700 |  |
| Prepaid insurance | 2,000 |  |
| Office equipment | 15,000 |  |
| Automotive equipment | 85,000 |  |
| Building | 110,000 |  |
| Land | 40,000 |  |
| Total assets |  | \$356,000 |
| Liabilities and Owner's Equity |  |  |
| Liabilities: |  |  |
| Accounts payable | \$ 4,510 |  |
| Notes payable | 154,400 |  |
| Total liabilities |  | \$158,910 |
| Owner's equity: |  |  |
| J. Dunston, Capital |  | 197,090 |
| Total liabilities and owner's equity |  | \$356,000 |

Note: Remember to check the owner's equity balance as follows: total assets total liabilities equals owner's equity. So \$356,000 - \$158,910 = \$197,090.
This should be exactly the same amount as the ending balance on the statement of owner's equity.
